

## Magento 2: CheatSheet, command-line

Depending on your settings the magento command will start with: `php bin/magento` or `bin/magento`

```
bin/magento --help or bin/magento -h
```

```
bin/magento help
```

```
bin/magento list list all possible commands
```

### Cron

```
bin/magento cron run
```

### Index management

```
bin/magento indexer:reindex
```

### Cache

```
bin/magento cache:status
```

```
bin/magento cache:disable
```

```
bin/magento cache:flush
```

```
bin/magento cache:clean
```

```
bin/magento cache:clean [type]
```

```
bin/magento cache:flush [type]
```

**Cleans** enable caches (check cache status), it does not purge the cache storage so it does not affect other processes or applications. It is safer than flush. **Flushes** purge cache storages.

### Modes: Production vs developer

```
bin/magento deploy:mode:show
```

```
bin/magento deploy:mode:set {mode}
```

```
bin/magento deploy:mode:set developer
```

```
bin/magento deploy:mode:set production
```

### Upgrade and Deploy

```
bin/magento setup:upgrade
```

```
bin/magento setup:di:compile
```

```
bin/magento setup:static-content:deploy
```

### Admin URL

```
bin/magento info:adminuri
```

```
bin/magento admin:user:unlock <username>
```

### Module

```
bin/magento module:status
```

```
bin/magento module:enable <Vendor_Module>
```

```
bin/magento module:disable <Vendor_Module>
```

### Maintenance

```
bin/magento maintenance:status
```

```
bin/magento maintenance:allow-ips Sets
```

```
maintenance mode exempt IPs
```

```
bin/magento maintenance:disable
```

```
bin/magento maintenance:enable
```

### Catalog/Images

```
bin/magento catalog:images:resize
```

```
bin/magento catalog:product:attributes:
```

```
cleanup Removes unused product attributes
```

### Working with less in Magento 2

```
grunt exec:<your_theme>
```

```
grunt less:<your_theme>
```

```
grunt watch
```

### less breakpoints

```
@screen__xxs: 320px;
```

```
@screen__xs: 480px;
```

```
@screen__s: 640px;
```

```
@screen__m: 768px;
```

```
@screen l: 1024px;
```

```
@screen xl: 1440px;
```
